

## 641 - ICB!

user

location!

location-id	longitude	locationName	State	Pin
1	510000	walkar	m1	49534
2	walkar	6111	m1	49534

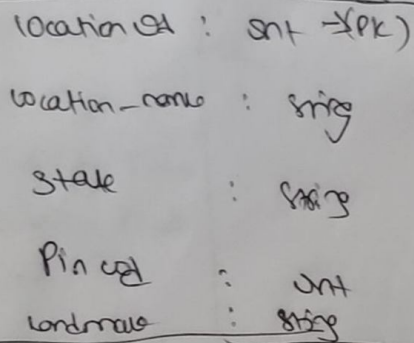

Table :- user

user-id	email	name	password	type	username	location-id
01	anu@gmail.	Anu	Anudeep	user	Anudeep	1
02	Romya@gmail	Rom	xy3P	user	Romya	2

→ This way the one to one relationship between user and location. user id is (PK) and location id is acting as a (FK) in user table.
